Red Weather Warning

Dear parents and carers

As you know, we are experiencing unprecedented hot weather with a red warning due to come into effect tomorrow and Thursday. We have made all reasonable adjustments on Monday and Tuesday but its clear that some pupils continue to struggle in the hot weather. In particular, we are concerned about the heat in some classrooms, the heat on the playgrounds/play equipment and the amount of time some pupils spend on their buses/taxis.

Having discussed the situation with local authority officers and the Secondary Schools across Caerphilly, the Chair of Governors and I have decided that the safest thing to do is to close the school tomorrow Wednesday 24th June and Thursday 25th June.

Further information and advice is available by clicking this link [Staying Safe in the Hot Weather - Aneurin Bevan University Health Board](#)

PCP meetings will move online/over the phone wherever possible.

Parents evening which was due to take place on tomorrow (Wednesday) will be rescheduled.

The Year 6 Prom will continue tonight as planned as this period of time is only covered by an amber weather warning and evening temperatures are cooler.

The school will reopen as usual on Friday 26th June

With very best wishes as always,

Dave Jenkins Executive Headteacher,
Trinity Fields School & Resource Centre

Learning together in a changing world, creating success for all
Developing all pupils as ambitious, enterprising, ethical and healthy learners
